Aledade Accelerate – Change Healthcare One-Time Advance
Program Overview

What is the Aledade Accelerate Change Healthcare One-Time Advance?

The Aledade Accelerate Change Healthcare One-Time Advance program provides an advance of shared savings to support practices impacted by the Change Healthcare cyber attack in February 2024. With the interest-free One-Time Advance payment, practices can alleviate financial strain caused by the cyber attacks. This advance must be used as agreed upon while adhering to specific terms and conditions.

Why should I participate?

By participating in Aledade Accelerate's Change Healthcare One-Time Advance program, practices can access an upfront advance to mitigate financial hardship caused by the Change Healthcare cyber attack or for purposes such as:

Growth and Expansion - Facility expansions and acquisitions to help manage and coordinate care for patients and establish broader infrastructure to ensure the practice can service a community

Technology Infrastructure - Integrate third-party systems for value-based care activities, upgrading your current Electronic Health Record (EHR) system and more

Workforce Management - Salary support, recruitment firm fees, sign-on and/or relocation bonuses, residency stipends and more to assist a practice in operating their clinical practices and providing coordinated care for patients

How does Aledade Accelerate's Change Healthcare One-Time Advance work?

The lump-sum interest-free advance is provided as an advance on shared savings. Upon approval, the advance payment must be used for an agreed upon purpose and is subject to the terms and conditions of the agreement through which the advance is memorialized. For financial hardship requests, you will not be required to sign a new Participation Agreement (PA), but may have to share financial documentation to support your request. Eligible organizations must be beyond Performance Year (PY0) and on a path towards shared savings with Aledade. Current recipients of recurring payments from Aledade may be eligible to participate.

How do I participate?

To find out if you qualify, connect with a local Aledade representative or request participation by completing and submitting the Aledade Accelerate Change Healthcare One-Time Advance form through My Practice in the Aledade App.
