

Put your margin to your mission.

What does starting your value-based care journey with Aledade mean for your health center?

Quality patient care transformed

Need help accessing timely, actionable patient data and prioritizing your most complex patients? The Aledade app is your go-to tool for visibility into your patient population* and beyond your four walls.

Administrative tasks reduced

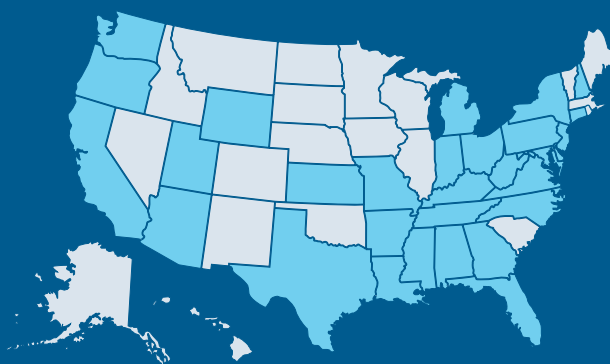

Tired of administrative workloads? Our clinical support services and team of health care experts work with your existing staff to provide workflow efficiencies tailored to your health center.

New revenue potential unlocked

CMS has been clear: by 2030, every Medicare beneficiary under the care of a clinician should be in an Alternative Payment Model (APM). Get credit for the high-quality care you are already delivering with revenue potential in Medicaid, Medicare, Medicare Advantage, and more.**

Spanning 30 states,
our health center network
consistently outperforms.
