

1 SEVERE BP ISN'T GOOD FOR ANYONE

We are defining severe blood pressure as systolic BP \geq 160 **and/or** diastolic BP \geq 100. Reducing sev BP greatly reduces the risk of hypertension complications.

160

What about BP control for care gap management?

We realize that success in our payer contracts requires a different BP target, and ultimately believe that what's good for clinical BP control will be good for achieving payer care gaps!

100

2 3 GOALS FOR 2021

Our Objectives	Key Performance Indicators
Fewer patients with severe BP	Reduce the number of Aledade patients who have severely elevated BP by 25%
More timely follow-up	Decrease the number of patients with severe BP and no 30-day follow-up by 50%
Disparity reduction	Reduce the disparity between Black and white patients who have severely uncontrolled blood pressure by 50%

3 BLOOD PRESSURE 2/4/7

Remember BP 2/4/7 for your practice's HTN control plan!

- 2** | Timely **two-week** follow-up visits for patients with severe BP
- 4** | For **everyone** to be involved in BP control
- 7** | **Seven-day** outreach call to keep patients with severe BP engaged

4 HOW TO GET THERE

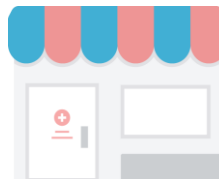

IDENTIFY YOUR PATIENTS w/ SEVERE BP

In the App:

- [BPSEV App Tags](#)
- Daily Huddle*
- Population Explorer*

ESTABLISH POINT OF CARE WORKFLOWS

- Access the *Daily Huddle* or *Daily Huddle Print* to identify patients with BPSEV who have appointments today
- Follow clinical best practices, using the [Aledade BP Management Toolkit](#) as a guide
- Create visual cues in the EMR and the exam room if patient's in-office BP reading remains over goal
- Recheck BP before end of visit if the patient's first BP was elevated
- Schedule patient for next appointment before they leave the office; refer to Care Manager as indicated and available

ESTABLISH OUTREACH WORKFLOWS

- Use *Population Explorer* to generate list of patients with severe BP and no recent appointment
- Create outreach and engagement plans
- Conduct 7-day outreach to patients with a severe BP reading

TRACK PROGRESS

- Tableau - BP KPI Tracking Dashboard* (provided by RMD, PTS, CPS)
